

Lumber Manufacturing Injury & Illness Incidence Report

First QUARTER 2015

— Issued May 14, 2015 —

Incidence rates are based on injuries
and illnesses recorded on OSHA Form 300
or state equivalent, covering the calendar year.

WESTERN WOOD PRODUCTS ASSOCIATION
1500 SW First Avenue, Suite 870
Portland, OR 97201-5861
503/224-3930

WWPA DISTRICTS

WWPA Safety Awards Program

Each year, Western Wood Products Association gives awards to Western lumber mills with the safest operations over one-year and five-year periods. Companies eligible for the awards are WWPA Member mills.

Chairman's Award

Lowest five-year incidence rate for Member mills with:

- Less than 220,000 employee hours annually.
- 220,000 to 340,000 employee hours annually.
- More than 340,000 employee hours annually.

District Award

Lowest one-year incidence rate for Member mills in each of WWPA's five districts.

Lumber Manufacturing Year to Date Summary Injury and Illness Incidence Report Ending 3/31/15

Incidence Rates by District

District	1st Quarter		Year-to-Date	
	WIR	TIR	WIR	TIR
1	21.22	4.20	21.22	4.20
2	17.47	3.35	17.47	3.35
3	37.54	7.78	37.54	7.78
4	70.08	10.10	70.08	10.10
5	31.36	6.27	31.36	6.27
Overall	29.04	5.44	29.04	5.44

Incidence Rates by Size Category

Operation's Employee Hours	Total Hours	Year-to-Date	
		WIR	TIR
Over 340,000 hrs. annually	1,730,410	22.77	4.39
220,000 - 340,000 hrs. annually	1,444,256	29.63	5.54
Under 220,000 hrs. annually	578,513	46.33	8.30

Top 5 Multi-Plant Operations

Company	Year-to-Date	
	WIR	TIR
PLUM CREEK MANUFACTURING, INC.	0.00	0.00
WEYERHAEUSER COMPANY	0.89	0.89
GEORGIA-PACIFIC WOOD PRODUCTS NORTHWEST, LLC.	1.40	1.40

WIR: Weighted Incidence Rate - calculated by weighting the severity of incidents

TIR: Total Incidence Rate - unweighted

Mills with missing or partial quarterly surveys are omitted from this report.

WIR Calculation Explanation

$WIR = ((10 \times LTI) + (5 \times RWI) + ORI) \times 200,000 / \text{Mill Hours Worked for Period}$

Where:

LTI = The mill's number of Lost Time Incidents for the period

RWI = The mill's number of Reduced Work Incidents for the period

ORI = The mill's number of Other Recordable Incidents for the period
